

Alliance with SCIENTIFIC AMERICAN, the World's Leading Science Magazine Global provider of cutting-edge scientific information

In addition to translations of the latest scientific and technological information published in the world's leading science magazine SCIENTIFIC AMERICAN, NIKKEI SCIENCE actively introduces news from Japan, covering not only the field of natural science but also medicine, computers, environment and economy. First-class scientists including Nobel laureates provide detailed commentary on each theme. Science, technology and related information are explored and explained accurately, meeting the demands for knowledge about the essence of science and technology as well as the latest developments.
